Sage ACT! Connect | Connected Services Brief

Access Sage ACT! from Where You Are, from the Method Most Convenient for You

Access Sage ACT! from where you are and from the method most convenient for you with Sage ACT! Connect, a subscription-based service that delivers your contacts and calendar to popular smartphones, tablets, and your laptop via supported web browsers[1].

With Sage ACT! Connect, your contact details, notes, history, meetings, and activities are stored safely in the Cloud. So instead of running Sage ACT! Connect yourself, it runs securely on a shared data center, which makes it fast to get started, eliminates the need for additional equipment on your end, and enables you to get to the details you need from virtually anywhere.

So next time you're on the move, you can quickly pull up that customer address you're headed to, make changes to an existing phone number or email address, and check your meeting schedule for the day.

More specifically, you have access to the Sage ACT! Connect Cloud or website from your smartphone, including BlackBerry®, Windows Mobile®, and Android™ devices; tablets, like the iPad®; and your laptop via Internet Explorer®, Firefox®, Google Chrome™, and Safari®[1].

● Access your Sage ACT! contacts and calendar from popular smartphones, tablets, like the iPad®, and your laptop via supported web browsers[1].

"This is just so cool and so easy to set up…a real winner." [2]

– Sage ACT! Connect Beta Participant

Get Real-time Mobile

Sync your BlackBerry, Windows Mobile, and Android devices[1] to Sage ACT! Connect for real-time, mobile access to your Sage ACT! contacts and calendar. Because Sage ACT! Connect uses your phone's built-in address book and calendar, you have access to contact details, your schedule, and more in the same familiar way you do today. Further, you can control how your data is updated between your device and Sage ACT! when you set your individual sync preferences, including one-way or two-way sync, plus timed or manual sync.

Be More Effective While on the Move

Improve your ability to be productive from virtually anywhere, whether you're traveling or working from your home office. With Sage ACT! Connect, you can view, add, and edit Sage ACT! contact details, notes, history, meetings, and activities from the easy-to-use Sage ACT! Connect Cloud or website. Access this site from tablets, like the iPad, and your laptop via Internet Explorer, Firefox, Google Chrome, and Safari[1].

Always Have the Most Updated Details with You

Access the very latest Sage ACT! details, no matter who on your team last edited a contact's phone number, added a note, or scheduled an activity, because Sage ACT! Connect includes workgroup sync. When working as a team, you can designate a single computer or server to sync on behalf of your entire workgroup so that updates can be received without each individual syncing on their computer.

● Your entire team will have access to the latest Sage ACT! details with workgroup sync.

Keep So Much More than Your Sage ACT! Contacts and Calendar

Make Sage ACT! Connect your go-to for all things related to managing your relationships and schedule. Not only can you access your Sage ACT! contacts and calendar, you can import your Google and Yahoo! contacts into Sage ACT! Connect too. Even link Facebook pictures to the contacts you keep, so it's that much easier to put a face to a name.

Rest-assured, Your Precious Data is Safe and Secure

Relax, your Sage ACT! contacts and calendar are safe and secure in the Cloud, because Sage ACT! Connect utilizes 128-bit encryption when syncing your data, plus provides secure, physical protection for unauthorized entry and catastrophic events.

About Sage North America

Sage North America is part of The Sage Group plc, a leading global supplier of business management software and services. At Sage, we live and breathe business every day.
